Fayetteville Police Headquarters and Public Safety Campus Purpose and Priorities Questionnaire

Key Project Parameters

In this section, we will present each of the five guiding project parameters as developed by the group, and will ask if you agree, disagree, or have no opinion on each one.

The mission of this project is:

- Safety and security for the public and police.
- A visible and central location housing all police operations, training, and support.
- The project will also house services for citizens in a building that invites the community and reflects its values.

(Choose any one option)

- I agree with these statements
- I disagree with these statements
- I neither agree nor disagree with these statements
- Other (please specify) _____

This project will serve as a functional statement building that communicates a welcome to citizens and reflects the values, image, and priorities of the City, including safety, service, location, design, efficiency, access, and community.

(Choose any one option)

- I agree with these statements
- I disagree with these statements
- I neither agree nor disagree with these statements
- Other (please specify) _____

Possible design challenges for this project include:

- The position of the building could be a challenge due to the need to navigate the topography of the site within the budget, which could result in a less-than-ideal intersection for traffic flow and walkability, as well as presenting a blank wall toward the neighborhood. There is a desire for aesthetics and usage to complement and integrate into the neighborhood, while meeting environmental and community standards in alignment with City development standards.

(Choose any one option)

- I agree with these statements
- I disagree with these statements
- I neither agree nor disagree with these statements
- Other (please specify) _____

If it could include everything we wanted and needed, this project would be:

- A corner building in a central location housing all police services that is walkable and accessible for all modes of transportation.
- Energy efficient and environmentally friendly with future growth options and resilient design.
- Attract top talent and provides the best training while being visually compelling, welcoming, and complementary to the neighborhood.
- Provide community and social services
- Provide safety and security for both officers and citizens

(Choose any one option)

- I agree with these statements
- I disagree with these statements
- I neither agree nor disagree with these statements
- Other (please specify) _____
